MONTHLY AI SPEND (USD)

$

Add it up after you fill in the table.

AI Subscription Inventory

List every AI tool and feature you pay for or use, including the AI built into software you already have. Then mark each one: access, use, or adoption.

AI TOOL OR FEATURE	COST / MO	WHO USES IT	HOW OFTEN	TASK	RUNS DIFFERENTLY?	LEVEL
Example: chat assistant, paid plan	*$__*	*Owner*	*Weekly*	*Drafting emails*	*No*	A **U** AD
						A U AD
						A U AD
						A U AD
						A U AD
						A U AD
						A U AD
						A U AD
						A U AD
						A U AD

THE THREE LEVELS

A · Access. You have the tool. You pay for it, or it came built in.

U · Use. Someone opens it sometimes, when they remember it's there.

AD · Adoption. A process in your business now runs differently, every time.

The cancel test: if you canceled it tomorrow, would any process in your business break? If not, it's access or use.

Tools listed

Marked Access

Marked Use

Marked Adoption

MONTHLY AI SPEND $

BEFORE YOU CALL THE LIST DONE

Check for AI that's already built in.

A lot of tools you already pay for have added AI features. Look in each of these and add anything you find to page 1.

- Email
- Calendar and scheduling
- CRM
- Accounting and invoicing
- Video calls and meeting notes
- Docs and spreadsheets
- Website and chat
- Phone system
- Design tools
- Social media scheduling

TEAM CHECK · 10 TO 50 PEOPLE

Ask your team. Anonymously.

Send a two-question anonymous form. People are probably already using AI, and some of it is on accounts you don't control. Hand out page 3, then tally the answers here.

1 Which AI tools did you use for work last week?

2 Personal or company account?

TOOL YOUR TEAM NAMED	PEOPLE	PERSONAL	COMPANY

WHAT YOU'LL PROBABLY FIND

01
You're paying for more than you thought.

02
Almost nothing lands in the adoption column. That's not a failure. That's your starting line.

Want a second set of eyes?

Go through this inventory with someone who's done it a thousand times. Book the AI Partner Diagnostic.

TEAM SURVEY · ANONYMOUS

Quick AI check. Two questions.

What this is for. We're taking stock of the AI tools people use for work, so we know what's actually helping and where we can do better. There are no wrong answers, and nobody is in trouble for using AI.

> **Don't put your name on this.** Answer honestly and turn it in anonymously.

1 Which AI tools did you use for work last week?

2 Personal or company account?
