AI Pitch Red-Flag Checklist

Use it in the meeting or right after. Ask each question, mark Yes or No, then compare your answer to the Good answer column.

	ASK THEM	GOOD ANSWER	YOUR ANSWER	WHAT THEY SAID
1	**Did they ask about your process first?** A real partner starts with how your work runs today.	**Yes**	Y N	
2	**Did they measure a baseline?** How long does this take you today? Do they know?	**Yes**	Y N	
3	**Can they explain the AI part in plain language?** If they can't, that's a red flag.	**Yes**	Y N	
4	**Do you own the build and the data?** If you can't leave, that's lock-in.	**Yes**	Y N	
5	**Is there a training plan for your team?** Who teaches your people, and when?	**Yes**	Y N	
6	**Is there an error and maintenance plan?** Software changes. Who fixes it when something upstream breaks?	**Yes**	Y N	
7	**Did they guarantee results?** Watch for "guaranteed" and "fully autonomous."	**No**	Y N	
8	**Is the rollout phased?** Small steps with checkpoints, not one big launch.	**Yes**	Y N	
9	**Can you start small?** A first project you can test before you commit.	**Yes**	Y N	
10	**Who approves the purchase on your side?** Name one person. Page 2 shows how.	**A named person**	_____	

HOW TO READ IT

Count a red flag every time your answer doesn't match the Good answer column.

Any red flag is a question to ask before you sign. Several is a reason to wait.

AI Purchasing Policy

One paragraph, filled in. Sign it, then hand it to everyone who can spend money or sign up for a tool.

At _____ *(company)*, no one signs up for, pays for, or connects a new AI tool until _____ *(name and title)* approves it. Any tool that costs more than $ _____ a month, or $ _____ a year, also needs a second sign-off from _____. The data and security check below comes first, every time. These stay out of any unapproved tool: _____ *(for example, customer data, payroll)*. Tools we already use get reviewed by _____ *(date)*. This policy is reviewed every _____ months by _____.

DATA AND SECURITY CHECK · BEFORE ANYONE SIGNS UP

- [ ] What company data will this tool see?
- [ ] Does the vendor use our data to train its AI?
- [ ] Where is our data stored, and can we export or delete it?
- [ ] If we leave, do we own what we built and our data?
- [ ] Will it run on a company account, not a personal one?
- [ ] Who will use it, and who trains them?
